PROJECTS

Mental Health AI Chatbot	April 2025
- Built a chatbot using NLP and sentiment analysis to detect and respond to user moods. - Handled 1,000+ test queries with 88% response accuracy. - Designed an intuitive UI to improve accessibility for non-technical users.	

Job-Portal Platform

Sep 2025

- Designed and developed a job portal platform that analyses resumes using NLP techniques to match candidates with job postings.
- Achieved 80% accuracy in resume-to-job relevance matching, improving recruiter screening efficiency.
- Implemented an intuitive user dashboard for job seekers and recruiters using React and MySQL.

Food Delivery App

Aug 2025

- Built a full-stack food delivery application with features like real-time order tracking, restaurant management, and secure payments.
- Improved delivery efficiency by integrating Google Maps API for optimized routing.
- Designed scalable backend services using Spring Boot and MongoDB to handle 1,000+ concurrent users.

CERTIFICATION

-
- Web Development Training – **Infotact Solutions**
 - Hack with India - **Unstop**
